News Release

Governments of Canada and Saskatchewan

Create Jobs, Build Communities

OTTAWA – MP Brad Trost is pleased to announce today that the residents of three local communities will benefit from joint federal and provincial funding for infrastructure projects.

The Village of St. Louis will receive over \$1.8 million in combined federal and provincial funding for a wastewater/lagoon project.

The Town of Cudworth will receive \$327,000 for street rehabilitation. The Village of Engfeld will receive over \$160,000 to upgrade its water treatment plant.

Each of the three municipalities will contribute the balance of the total eligible project cost.

“Helping municipal governments upgrade essential infrastructure, creating jobs and cutting red tape all at the same time. This is good news for Saskatchewan,” said MP Trost.

These three local projects join 46 projects across the province that will break ground quickly thanks to a joint federal-provincial investment of \$63 million. Together with municipal contributions, the total investment in local infrastructure improvements in Saskatchewan exceeds \$95 million. The governments of Canada and Saskatchewan have taken steps to get shovels in the ground and to flow money faster for targeted infrastructure projects in Saskatchewan communities in the 2009 and 2010 construction seasons.
